

AVNISH KUMAR VERMA

MERN Stack Developer & Software Engineer Intern

+91 84178 58592 a33010171@email.com linkedin.com/in/avnish1 github.com/avnish-verma

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Raj Kumar Goel Institute of Technology (RKGIT)

Expected Graduation: 2029

Ghaziabad, Uttar Pradesh

- Completed 1st Year Core Curriculum Requirements with absolute foundational clarity.

Class XII / Intermediate (CBSE / U.P. Board Standard)

Senior Secondary Academic Program

Graduation Year: 2025

Ballia, Uttar Pradesh

Class X / High School (CBSE / U.P. Board Standard)

Higher Secondary Academic Program

Graduation Year: 2023

Ballia, Uttar Pradesh

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, HTML5, CSS3, SQL

Frameworks & Libraries: ReactJS, NodeJS, ExpressJS, Bootstrap

Databases & Cloud Stack: MongoDB, MySQL, Firebase Stack

Developer Utilities: Git, GitHub Architecture, VS Code, Postman, Vercel Deployment

Core Engineering Concepts: Data Structures, Design Algorithms, Object-Oriented Programming (OOP)

KEY PROJECTS

GyanSync | Learning Management System (LMS)

[Live Link](#)

Full-Stack Deployment Architect

MongoDB, ExpressJS, ReactJS, NodeJS, Vercel

- Developed and deployed** a secure, full-stack LMS designed for local coaching institutes to stream educational video content and host digital notes securely.
- Implemented** secure user authentication and role-based access control, creating an encrypted dashboard workflow for over 100+ active users.
- Optimized** application hosting and frontend routing using Vercel, boosting video content delivery speeds by 35% and reducing overall application latency by 20%.

KEY ACCOMPLISHMENTS & EXTRACURRICULARS

- Competitive Programming:** Solved 35+ problems on LeetCode, maintaining a consistent daily streak and actively expanding knowledge of algorithmic runtime optimization.
- Project Exhibition:** Selected to showcase a live web application software project at SRIJAN-2026, the annual project engineering exhibition hosted at RKGIT.
- Robotics Competition:** Competed in The Great Escape, a 2WD autonomous/robotics hardware maze navigation challenge organized by Team ELECTRAZZ at RKGIT.
- Professional Habits:** Consistently track daily engineering objectives and practice touch-typing to optimize development workflow and execution velocity.
